Career Objective

Motivated B.Tech CSE (Data Science) student with strong knowledge in Python, Machine Learning, NLP, and Web Development. Passionate about building intelligent software solutions and solving real-world problems using AI technologies.

Education

B.Tech – Computer Science Engineering (Data Science)

SR University | Currently Pursuing

Technical Skills

Python • C Programming • Machine Learning • NLP • HTML • CSS • JavaScript • SQL • Data Science

Projects

Spam Message Detection (ML) – Developed a spam detection system using Python, NLP, and Scikit-learn.

Fake News Detection (NLP) – Built an NLP-based system to identify misleading news articles using Machine Learning algorithms.

Crop Prediction System – Created a machine learning model for crop yield prediction and smart farming decisions.

Portfolio Website – Designed a responsive portfolio website using HTML, CSS, and JavaScript.

Strengths

Problem Solving • Quick Learner • Team Collaboration • Communication Skills • Analytical Thinking

Interests

Artificial Intelligence • Machine Learning • Data Science • NLP Applications • Web Development
